EXPERIENCE

Tal9i7 - Tunis, Tunisia

DevOps Engineer

Sep 2024 – Present

- Collaborated in a team of 5 to operate AWS environments managed with Terraform, automating deployments to reduce drift.
- Introduced cost controls using EventBridge and Lambda (off-hours shutdowns, backups, log retention), reducing monthly costs by 45%.
- Configured monitoring and incident notifications with CloudWatch metrics/logs, SNS, and external uptime checks.

Vermeg - Lac 1, Tunisia

DevOps Engineer Intern (End-of-studies internship)

Feb 2024 – Aug 2024

- Developed a deployment workflow using Ansible, Jenkins, and OpenShift, reducing release times by 60%.
- Orchestrated multi-branch pipelines with integrated testing (Selenium, Cucumber), speeding up iterations.
- Scripted provisioning workflows for PostgreSQL and Oracle, improving infrastructure consistency across deployments.

DevOps Engineer Intern (Summer internship)

Jul 2023 – Oct 2023

- Built a messaging application with ActiveMQ, deployed using GitOps pipelines via Argo CD and Helm on Kubernetes with KEDA.
- Added metrics, dashboards, and alerting with Prometheus and Grafana, reducing downtime by 40%.
- Operated Jenkins pipelines, reducing manual release errors by 30%.

PROJECTS

AWS-ECS-Blueprint | Terraform, AWS ECS Fargate, CloudFront, WAF, ALB, RDS, VPC Endpoints, GitHub Actions

- Developed an AWS Terraform blueprint for private ECS/Fargate web workloads featuring CloudFront, WAF, private or restricted ALB patterns, private RDS, controlled egress, and separate production and non-production deployment roots.
- Implemented GitHub Actions CI/CD for IaC validation, security scanning, dependency review, speculative plans, drift checks, and plan-based deployments requiring environment approvals.

KubleOps | Terraform, AWS (EKS, VPC, ECR), Argo CD, Helm, Karpenter

- Constructed an EKS GitOps platform featuring a highly available multi AZ VPC, managed node groups, Karpenter autoscaling, IRSA, and reusable cluster provisioning patterns.
- Integrated Argo CD, Helm, and CircleCI pipelines for automated builds, container image scanning, synchronized cluster delivery, and GitOps-based application deployment.

EcoAuto | Terraform, GitLab CI, AWS (EC2, ASG, RDS, S3, Route 53, CloudWatch, Lambda@Edge, EventBridge)

- Designed a modular AWS architecture utilizing EC2 Auto Scaling, RDS, private S3 with CloudFront, and Lambda@Edge for dynamic origin routing and cost-optimized web application delivery.
- Automated lifecycle operations with Lambda and EventBridge for start/stop schedules, snapshot cleanup, origin reconciliation, and event-driven infrastructure operations across environments.

Mini Microservices Platform | Spring Boot / Node.js, Angular / React, Nginx, FastAPI, Docker, GitHub Actions

- Consolidated Spring Boot/Angular and Node.js/React microservices into a unified secure platform orchestrated by Docker Compose with an Nginx gateway and polyglot service architecture.
- Established a DevSecOps pipeline featuring CodeQL SAST, Trivy/Grype scanning, DAST, SBOM generation, OSSF Scorecard reporting, and signed release image publishing.

EDUCATION

ESPRIT (École Supérieure Privée d'Ingénierie et de Technologies)

2021 – 2024

Engineering degree in Cloud Computing and IT Architecture

Preparatory Institute for Engineering Studies of Tunis

2019 – 2021

SKILLS

Cloud Platforms: AWS, OpenStack, Microsoft Azure

Infrastructure as Code (IaC): Terraform, Ansible

Containers & Orchestration: Kubernetes, OpenShift, Docker, Docker Compose, Helm, KEDA, Karpenter, kustomize

Observability: Prometheus, Grafana, CloudWatch

Security: HashiCorp Vault, Falco

Languages & Scripting: Python, Bash, PowerShell

Version Control & Collaboration: GitHub, GitLab, Jira

Operating Systems: Linux (Ubuntu, RHEL, Talos Linux)

CI/CD & DevOps Tooling: GitLab CI, GitHub Actions, Jenkins, CircleCI, Argo CD, SonarQube, Nexus, Trivy

CERTIFICATIONS

Kubernetes: Kubestronaut, CKS, CKA, CKAD, KCSA, KCNA

Cloud & Infrastructure: Red Hat Certified System Administrator, Terraform Associate, AWS Certified Solutions Architect – Associate, Microsoft Azure Fundamentals, AWS Certified Cloud Practitioner

LANGUAGES

• **Arabic:** Native

• **English:** C1

• **French:** B2
